FONTS AND LAYOUT

THIS IS THE FRAME TITLE

WITH OPTIONAL FRAME SUBTITLE

Regular text in the body of the slide is black and rendered in Helvetica sans-serif.

Helvetica has no corresponding math font. Therefore, equations are typeset in Computer Modern sans-serif and are also displayed in plain black:

$$F(x|\mu, s) = \int_{-\infty}^x s^{-1} \left(1 + e^{-\frac{v-\mu}{s}}\right)^{-2} e^{-\frac{v-\mu}{s}} dv = \frac{1}{1 + e^{-\frac{x-\mu}{s}}}$$

Emphasis can be added by using **bold** typeface, *italic*, colors or **any combination**. More about colors follows later.

THE FRAME TITLE IS RENDERED IN SMALL CAPS

The official UGent Powerpoint/Keynote templates have all titles in both ALL CAPS, **bold** and underline.

In my opinion, this combination is somewhat **AGGRESSIVE AND UNPLEASANT TO THE EYE.**

Instead, this theme makes use of SMALL CAPS for all titles and subtitles

LISTS AND ENUMERATION

LISTS OF ITEMS

This is how a list of unnumbered items looks:

- Item 1
- Item 2
- Item 3

Nested lists of items are possible too:

- Item 1
 - Subitem a
 - Subitem b
- Item 2
 - Subitem a
 - Subitem b

LISTS OF ITEMS

This is how a list of numbered items looks:

1 Item 1

2 Item 2

3 Item 3

4 Item 4

5 Item 5

COLORS

COLORS

- The official UGent colors (in RGB) are part of the theme.
- The primary UGent color is `ugentblue`, and the secondary color is `ugentyellow`.
- The faculty specific UGent themes can use the faculty color as secondary color.

- `ugentblue`

- `ugentyellow`

- `ugent-lw`

- `ugent-re`

- `ugent-we`

- `ugent-ge`

- `ugent-ea`

- `ugent-eb`

- `ugent-di`

- `ugent-pp`

- `ugent-bw`

- `ugent-fw`

- `ugent-ps`

- Note that every faculty color name refers to the abbreviation of the faculty name.

MORE ABOUT COLORS

- The main colors of the presentation are ugentblue, black and white.
- The secondary color should only be used exceptionally.
- The theme defines a special color `ugent-alert`.
- This color is *or* `ugentyellow` *or* the faculty color.
- The special color `ugent-alert` equals the faculty color:
 - **if** the faculty specific template is used
 - **and if** the option `usecolors` is set
- In all other cases `ugent-alert` is `ugentyellow`

EXAMPLE OF UGENT-ALERT

Theorem

There is no largest prime number.

EXAMPLE OF UAGENT-ALERT

Theorem

There is no largest prime number.

Proof

- 1 Suppose p were the largest prime number.

EXAMPLE OF UGENT-ALERT

Theorem

There is no largest prime number.

Proof

- 1 Suppose p were the largest prime number.
- 2 Let q be the product of the first p numbers.

EXAMPLE OF UGENT-ALERT

Theorem

There is no largest prime number.

Proof

- 1 Suppose p were the largest prime number.
- 2 Let q be the product of the first p numbers.
- 3 Then $q + 1$ is not divisible by any of them.

EXAMPLE OF UGENT-ALERT

Theorem

There is no largest prime number.

Proof

- 1 Suppose p were the largest prime number.
- 2 Let q be the product of the first p numbers.
- 3 Then $q + 1$ is not divisible by any of them.
- 4 But $q + 1$ is greater than 1, thus divisible by some prime number not in the first p numbers.

EXAMPLE OF UGENT-ALERT

Theorem

There is no largest prime number.

Proof

- 1 Suppose p were the largest prime number.
- 2 Let q be the product of the first p numbers.
- 3 Then $q + 1$ is not divisible by any of them.
- 4 But $q + 1$ is greater than 1, thus divisible by some prime number not in the first p numbers. □

ANOTHER EXAMPLE OF UAGENT-ALERT

Blocks can be created for definition, proofs, examples, etc.

Regular block

This is an important message.

ANOTHER EXAMPLE OF UAGENT-ALERT

Blocks can be created for definition, proofs, examples, etc.

Regular block

This is an important message.

A special kind of block is the alertblock:

Alert!

This is a very important message.

FRAME NUMBERS

FRAME NUMBERS

- By default frame numbers are placed on every “regular” frame.
- That excludes logoframes, titleframes and sectionframes.
- The frame number is always followed by the total number of frames.
- The theme option `noframenumber` removes frame numbers on all slides.
